PACKAGING FOR THE INDIVIDUAL PRESENTATION OF AT LEAST ONE
SCREW

5

The package (100) of the invention is for
individually presenting at least one screw (110)
comprising a shank and a head. In characteristic manner,
the package (100) comprises a tube (102) suitable for
10 being held in the hand and presenting a first end and a
second end, said tube (102) being provided with at least
one housing (106) for receiving said screw (110) in
unitary manner, said housing (106) presenting an opening
into said first end, and closure means (116) closing said
15 housing (106) in sealed manner and suitable for being
opened, said housing (106) extending in a longitudinal
direction, said second end serving as a stand suitable
for pressing against a substantially horizontal plane, in
particular in order to give access to the screw (110)
20 situated in said housing (106) via said opening when said
closure means (116) are open, with said stand extending
perpendicularly to said longitudinal direction.
